Custom Fit

Our Custom-Fit system enables us to create truly bespoke back rests to provide unrivalled tailored support and comfort. We can visit any location in mainland UK or invite individuals to visit our showroom in Lancashire where we will measure and assess for the back rest required.

We use our specialised system to map our back rests with varying densities of foam and supports to create any shaped backrest with any support required – ideal for Scoliosis, Spina Bifida, spinal surgery and various other conditions.

BCS1952

Bi-Colour Fabric

How do you improve on the fantastic support and comfort of an Opera chair? Have it upholstered in our Bi-colour fabric! You can have a two-tone colour for an individual look or to suit your corporate colour requirements. This can be created on any of our Opera chairs - for colour options please contact us.
