

Conset 501-49 Sit Stand Electric Desk

The 501-49 combines elegant design and complete flexibility. The round legs provide a contemporary design appeal and the upper telescoping bracket enables the frames width to adjust from 116cm to 176cm. Available colours include silver, black and white all with chrome inner columns.

The absence of a crossbeam between the columns offers the best possible leg-room, aiding with pedestal storage and the potential for wheelchair access or the use of leg rests to stretch.

The desk provides a lifting capacity of 100kg whilst the leg upright provides superior support.

- Height range: 65-125cm
- Height adjustment speed: 32mm/sec

Wood Finishes

The prices quoted are for desks finished in melamine. If you would like an alternative finish there may be a surcharge, please contact the office for prices.
